Blog Development
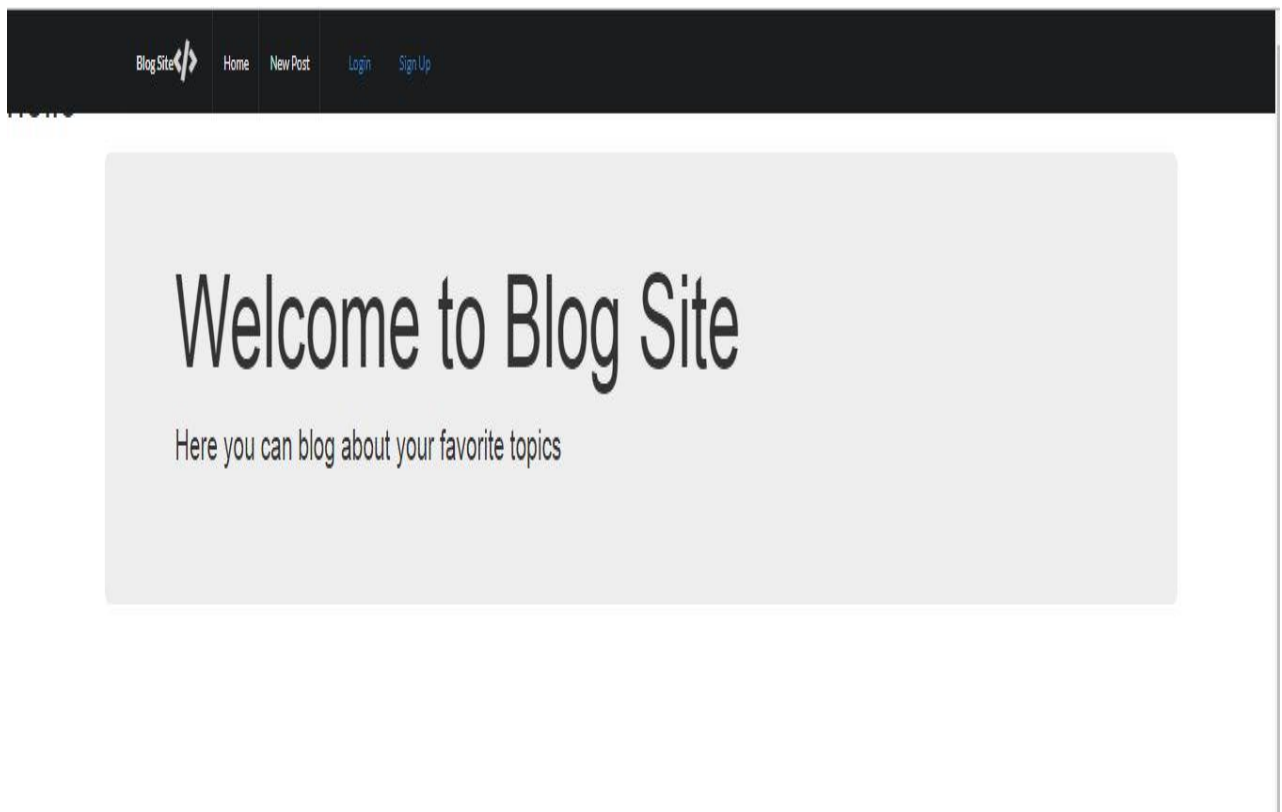

Featrures:

i)Login control

ii)Posting capability

iii)Seeing each other post

iv) Edit/Delete your own post

Steps:

i)When you goto **localhost:8080** this page opens

You have two options now either to signup or login

ii)Signup- If you click on sign up this page opens

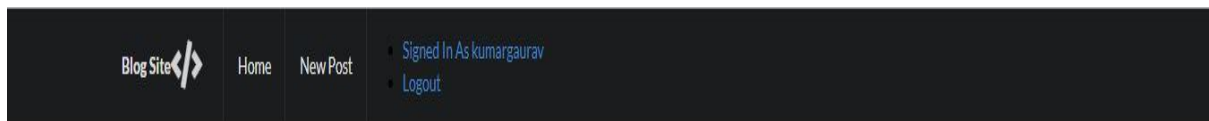

iii)After successful signup you will be directed to login page where u can login using Username and password. After login u will be taken to home page.

iv)When u want to do new post click on new post button

v)After that you have one more feature of edit and delete your own post.

Tue Jan 08 2019

love u...........

Edit

Delete

vi)At last u can logout.
